

2027 FLEET BUYER'S GUIDE

WORK READY

GIVE YOUR FLEET PREFERRED STATUS

Ram Professional is the Stellantis division that offers top-quality commercial vehicle products and customer support. It provides comprehensive professional services to help businesses thrive.

Ram Professional is built for those who power progress. It's designed for trades, fleets and businesses that demand strength, durability and capability without compromise. Every truck and van is made to work harder, last longer and keep business moving.

Service support includes maintenance contracts, mechanical coverage and 24-hour roadside assistance.

CHECK ELIGIBILITY AND APPLY FOR A FLEET ACCOUNT NUMBER

To become a Fleet member, you must currently be operating 5 or more vehicles or be looking to purchase or lease a minimum of three vehicles and/or have an HST/GST registration number for your company. You can apply for a Fleet Account Number (FAN) through any of our over 400 dealerships across Canada.

ENROLL IN OUR WEB SERVICE

Once you have received your FAN, you will be eligible to enroll for a web ID. This ID gives you access to our customer hub where you can stay up to date on your vehicle orders and member news.

NEW 2027 SAFETY AND DRIVER-ASSISTANCE FEATURES

Stellantis Pro One covers safety issues from every angle, from data-driven maintenance reminders to driver performance reviews. The benefits of safety and security measures cannot be understated, contributing to the overall well-being of drivers, employees, passengers — and the bottom line. For 2027, Stellantis fleet vehicles will offer advanced safety and driver-assistance features that include:

- **Turn Signal-activated Blind-spot View⁽²⁾** Camera displays a live feed of the adjacent lane on the 10.1-inch touchscreen when the turn signal is activated. Available.
- **Park-Sense[®] based Camera Activation⁽²⁾** Automatically triggers the camera view when Park-Sense sensors detect a nearby obstacle at low speeds.
- **Updated Vertical LED Projector Headlamps** Provide a 17 percent improvement in maximum reach compared to previous models. Available.

These standard and available features have become increasingly popular in fleet packages and ordering:

- **360° Surround-View Camera⁽³⁾** Provides a complete, top-down view of the vehicle's surroundings
- **Park-Sense Front Park Assist with Stop⁽²⁾** Aids in parking with automatic braking when necessary
- **Full-Speed Forward Collision Warning (FSFCW) with Active Braking⁽²⁾** Audibly and visually alerts the driver to potential collisions, applying automatic emergency braking if needed
- **Pedestrian Automatic Emergency Braking System⁽⁴⁾** Detects pedestrians and automatically brakes if they are in the path of the vehicle
- **FamCAM™ Interior Camera⁽⁵⁾** Allows parents to view rear-seat passengers, including rear-facing child seats, with day / night modes
- **Active Noise Cancellation (ANC)** Reduces cabin noise for improved driver concentration

THE LATEST IN HYBRID TECHNOLOGY

Stellantis recently rolled out the new **1.6L Turbocharged 4-cylinder hybrid engine** that delivers performance and efficiency without the need for a plug. The engine is part of a hybrid system that made its debut in the 2026 Jeep® Cherokee Hybrid. Drivers will benefit from improved fuel economy, the ability to drive short distances on electric power alone and enhanced all-wheel-drive (AWD) capability with 4x4 systems.

The hybrid system combines the 1.6L Turbocharged engine with a two-motor hybrid transmission, which for Cherokee, delivers an estimated 6.3 L / 100 km (37 mpg) combined (city / highway)⁽⁶⁾ and will produce a total of 210 horsepower and 230 lb-ft of torque. Its 1.03-kWh high-voltage, liquid-cooled lithium-ion battery can produce up to 100 km / h (62 mph) for short distances without the engine in use.

The transmission consists of a variable power split transmission and two motor generators that make for seamless transitions between electric, hybrid and regenerative braking modes. A proprietary software and control unit optimize power distribution between the engine, motors and battery for maximum efficiency.

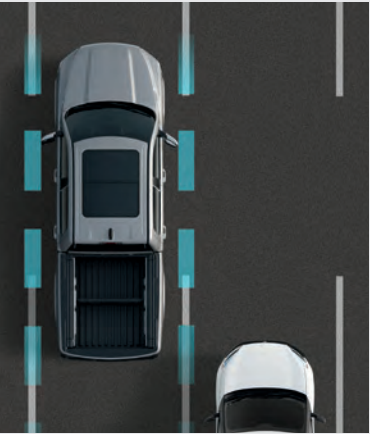

This hybrid propulsion system promises to set a new standard for the segment, redefining what drivers expect from hybrid SUVs.

READY

1. In addition to our standard 3-year or 60,000-km Basic Limited Warranty and 5-year or 100,000-km Powertrain Limited Warranty, 2027 Model Year Chrysler, Dodge, Jeep and Ram vehicles are given enhanced powertrain coverage and will be covered by FCA for 3-year or 60,000-km Basic Limited Warranty and 5-year or 160,000-km Powertrain Limited Warranty (excluding SRT models, Alfa Romeo and Cummins vehicles). Cummins Turbo Diesel engine is covered under a separate Limited Warranty for 5 years or 160,000 kilometres. Service Contracts are available. Hybrid System and High Voltage Battery limited warranty coverage is 8 years or 160,000 km. Vehicles qualify for U.S. warranty coverage under the CAN/AM warranty when the original fleet purchaser has used them in Canada for at least six (6) months and 15,000 kilometres. Conditions apply; please contact your fleet representative for details. 2. This is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of their surroundings and be prepared to take corrective action to avoid collisions. 3. Always check entire surroundings visually before proceeding. 4. This system is an alert system for the front of the vehicle. It is not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. 5. Driving while distracted can result in loss of vehicle control. Only use the FamCAM interior camera when it is safe to do so. 6. Based on *EnerGuide* highway fuel consumption ratings and fuel tank options. Government of Canada test methods used. Your actual fuel consumption will vary based on driving habits and other factors. Ask your retailer for the *EnerGuide* information. 7. No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. 8. Traffic Sign Recognition is not a substitute for safe and attentive driving. Factors including weather and condition of the traffic sign can impact the recognition and display of the sign. Always check traffic signs visually while driving. 9. Vehicle must be enrolled with Brand Connect, be in an active and usable cellular range, have an active subscription and be properly equipped with a Uconnect 5 NAV system. Requires a Wi-Fi Hotspot data plan and linked Amazon account to run Alexa in the vehicle. 10. Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice controls, when it is safe to do so. Requires compatible iPhone. See retailer for phone compatibility. Data plan rates apply. To use Android Auto on your phone screen, you'll need an Android phone running 6.0 or higher and the Android Auto App. To wirelessly use Android Auto on your car display, you need a compatible Android smartphone with an active data plan. You can check which smartphones are compatible at g.co/androidauto/requirements. 11. Vehicle must be enrolled with Brand Connect, be in an active and usable cellular range, and have an active subscription. 12. Vehicle must be in an active and usable cellular range and properly equipped with a Uconnect 5 or Uconnect 5 NAV system and Rear-Seat Entertainment Group. Requires a mobile device with Wi-Fi Hotspot service and a linked Amazon account. Wi-Fi data plan and streaming service subscriptions are not included; data charges and overage fees may apply. 9GB of user-available storage. Services are subject to change or withdrawal at any time, may not be available in all languages and may require separate subscriptions. 13. If you decide to continue service after your trial, the subscription plan you choose will continue and you will be charged according to your chosen payment method at then-current rates unless you cancel your services. Fees and taxes apply. Some services and features are subject to device capabilities and location availability. Please see the SiriusXM Customer Agreement at www.siriusxm.ca/terms for complete terms and how to cancel, which includes calling SiriusXM at 1-888-539-7474. All fees and programming are subject to change, provided that we will notify you in advance of any price change. We use personal information in accordance with our Privacy Policy, available at www.siriusxm.ca/privacy. 14. All vehicles properly equipped to receive connected services come with a three-month trial of Assistance Package or Assistance + Navigation Package (if equipped), up to 10 years of the Vehicle Performance Package, and the Safety and Security Package effective from the date of purchase or lease of a new vehicle. Enrolment in trial is required to receive services. Upon expiration of trial period, purchase of a subscription is required to continue or renew services. Services are available on equipped vehicles purchased within the United States, Canada and Puerto Rico. Services can only be used where cellular coverage is available. Terms apply. See the applicable Terms of Service for complete terms and conditions, including service limitations. 15. Traffic Jam Assist requires the driver to keep his or her hands on the steering wheel at all times. This system is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and maintain control of the vehicle. 16. Three-month / 3GB trial included with the purchase or lease of a new vehicle. Upon expiration of the trial period, purchase of a subscription is required. Wi-Fi Hotspot available through third-party subscription. Requires Internet-enabled mobile device. See retailer for details. This feature is not intended for use by the driver while the vehicle is in motion. Always drive carefully. 17. Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. 18. Never program while driving. GPS mapping and 3D navigation may not be detailed, available in all areas or reflect current road regulations. 19. Highway Assist System requires the driver to keep his or her hands on the steering wheel at all times. This system is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and maintain control of the vehicle. 20. Estimated driving range based on *EnerGuide* fuel consumption ratings and fuel tank capacity. Your actual driving range will vary based on powertrain, driving habits and other factors. Use for comparison

purposes only. 21. When properly equipped. 22. The Advanced Front Air Bags in this vehicle are certified to the Federal regulations for Advanced Air Bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a front-passenger air bag. All occupants should always wear their lap and shoulder belts properly. 23. Vehicle must be locked and system activated for alarm to sound. 24. Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. 25. Not compatible with all garage door openers.
